February 19, 2020

To whom it may concern,

Dr Meers has been a credentialed provider with Davis Vision, Superior Vision for several years. Since these companies have formed Versant health, he has been a credentialed provider with Versant Health as well.

It has come to our attention since December 2019 that a number of patients have become dissatisfied with Versant Health. As an aside we had received a shipment on or about November 2019 of the "Davis Glasses" but we did not receive the full complement of frames. Our office manager sent e-mails on or about November 2019, January 2020 and February 2020 requesting help with this matter.

A number of patients in our area have Davis, Superior, Versant (FEP Blue, Boeing, SEBB) as their vision provider and we want to service these patients and our community. Unfortunately given present circumstances we would like to Terminate our contract (see attached form). We are sure once things get ironed out with the new Versant health we'd love to apply to be a provider again. But at this time (effective **6/1/2020**) we will see Superior/Davis/Versant patients "out of network". Since we never received the full compliment of frames, **we are unable to put frames on display**. Please arrange for your local rep to call our office and pick up these frames.

Kindest regards and we hope to work with you again in the near future,

**Dr George Meers**
